Claims 21-35 are currently pending. Claims 1-20 were previously cancelled in response to a restriction requirement.

II. Remarks Regarding Species Election Requirement

Accordingly, Applicants hereby elect metal salts as the substantially non-radioactive tracking material in claim 21. In accordance with this election requirement, Applicants identify claims 21, 23, 24, 26, and 29-31 as falling within these elected species. Applicants reserve their right to pursue additional species should a generic be allowed, or in a divisional or other continuing application.
